

Learning to love your airplane with an Advanced Preflight

At this month's Pilots' Workshop, Willamette Aviation Advanced Ground Instructor Erin Bosnjak will lead a discussion on Advanced Preflight, with a look at both checklists and practical techniques.

Too often, pilots start to rely on rote memorization of preflight checks, or they think an airplane is airworthy because "we just flew it yesterday." At this month's event, Erin will discuss checklist options and ask pilots to share their own preflight tips.

Directions: DRIVE IN - Two miles south of Wilsonville, just off I-5. 1/4 mile south of Arndt Rd.

FLY IN - Taxi to the very north end of the Aurora airport. Park on the ramp between the fuel island and the FBO building.
AVOID OVERFLYING POPULATED AREAS.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
